## 2.1. Classification of the substance or mixture

## **GB CLP Regulation**

Skin Sens. 1; H317 Aquatic Chronic 2; H411

Full text of hazard statements: see SECTION 16.

## 2.2. Label elements

## **GB CLP Regulation**

# Hazard components for labelling

di-urethane dimethacrylate

tetramethylene dimethacrylate Warning

Signal word:

**Pictograms:** 

## Hazard statements

| H317 | 7 |
|------|---|
| H411 | 1 |

May cause an allergic skin reaction. Toxic to aquatic life with long lasting effects.

## Precautionary statements

| P261      | Avoid breathing dust/fume/gas/mist/vapours/spray.  |
|-----------|--|
| P273      | Avoid release to the environment.  |
| P280      | Wear protective gloves/protective clothing/eye protection/face protection/hearing<br>protection. |
| P333+P313 | If skin irritation or rash occurs: Get medical advice/attention.                                 |
| P501      | Dispose of waste according to applicable legislation.  |

## according to UK REACH Regulation

Full text of H and EUH statements: see section 16.

## **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

## After inhalation

Provide fresh air. When in doubt or if symptoms are observed, get medical advice.

#### After contact with skin

After contact with skin, wash immediately with plenty of water and soap. Take off immediately all contaminated clothing and wash it before reuse. In case of skin irritation, consult a physician.

#### After contact with eyes

Rinse immediately carefully and thoroughly with eye-bath or water. In case of eye irritation consult an ophthalmologist.

#### After ingestion

Rinse mouth immediately and drink 1 glass of of water. Call a physician immediately.

## 4.2. Most important symptoms and effects, both acute and delayed

No information available.

# 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

## SECTION 5: Firefighting measures

## 5.1. Extinguishing media

according to UK REACH Regulation

## dialog Vario Flow

Revision date: 20.03.2025

Product code: 643378-643393-1

Page 3 of 9

## Suitable extinguishing media

Water spray jet Carbon dioxide Extinguishing powder Foam

#### Unsuitable extinguishing media

Full water jet

## 5.2. Special hazards arising from the substance or mixture

Non-flammable.

## 5.3. Advice for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing. Full protection suit.

#### Additional information

Suppress gases/vapours/mists with water spray jet. Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

## **SECTION 6: Accidental release measures**

## 6.1. Personal precautions, protective equipment and emergency procedures

#### **General advice**

Provide adequate ventilation. Do not breathe gas/fumes/vapour/spray. Avoid contact with skin, eyes and clothes. Use personal protection equipment.

#### 6.2. Environmental precautions

Do not allow to enter into surface water or drains.

## 6.3. Methods and material for containment and cleaning up

## For cleaning up

Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents). Treat the recovered material as prescribed in the section on waste disposal.

## 6.4. Reference to other sections

Safe handling: see section 7 Personal protection equipment: see section 8 Disposal: see section 13

## **SECTION 7: Handling and storage**

## 7.1. Precautions for safe handling

## Advice on safe handling

No special measures are necessary.

## Advice on protection against fire and explosion

No special fire protection measures are necessary.

## Advice on general occupational hygiene

Remove contaminated, saturated clothing immediately. Draw up and observe skin protection programme. Wash hands and face before breaks and after work and take a shower if necessary. When using do not eat, drink, smoke, sniff.

#### 7.2. Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Always close containers tightly after the removal of product.

#### Hints on joint storage

No special measures are necessary.

## Further information on storage conditions

Recommended storage temperature 10 - 25 °C

according to UK REACH Regulation

## dialog Vario Flow

Revision date: 20.03.2025

Product code: 643378-643393-1

Page 4 of 9

## 7.3. Specific end use(s)

Verblendkunststoff / Resin facing material

## **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

## Additional advice on limit values

To date, no national critical limit values exist.

## 8.2. Exposure controls

## Individual protection measures, such as personal protective equipment

## Eye/face protection

Wear eye/face protection.

#### Hand protection

Tested protective gloves must be worn Suitable gloves type Butyl caoutchouc (butyl rubber) NBR (Nitrile rubber) Permeation time (maximum wear duration): 0,3 mm: 60 min. Permeation time (maximum wear duration): 0,11 mm: 10 min.

#### Skin protection

Use of protective clothing.

## Respiratory protection

Usually no personal respirative protection necessary.

## **SECTION 9: Physical and chemical properties**

## 9.1. Information on basic physical and chemical properties

| Physical state:                            |                |
|--|----------------|
| Colour:                                    |                |
| Melting point/freezing point:              | not determined |
| Boiling point or initial boiling point and | 251 °C         |
| boiling range:                             |                |
| Flammability:                              | not determined |
| Lower explosion limits:                    | not determined |
| Upper explosion limits:                    | not determined |
| Flash point:                               | 113 °C         |
| Auto-ignition temperature:                 | >370 °C        |
| Decomposition temperature:                 | not determined |
| pH-Value:                                  | not determined |
| Viscosity / kinematic:                     | not determined |
| Water solubility:                          | No             |
| Solubility in other solvents               |                |
| not determined                             |                |
| Partition coefficient n-octanol/water:     | not determined |
| Vapour pressure:                           | not determined |
| Density (at 20 °C):                        | 1,72 g/cm³     |
| Relative vapour density:                   | not determined |
|  |                |

according to UK REACH Regulation

Particle characteristics:

## 9.2. Other information

not applicable

# Information with regard to physical hazard classes

Explosive properties

The product is not: Explosive.

Oxidizing properties

The product is not: oxidising.

#### **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

No hazardous reaction when handled and stored according to provisions.

## 10.2. Chemical stability

The product is stable under storage at normal ambient temperatures.

#### 10.3. Possibility of hazardous reactions

Hazardous polymerisation:

10.4. Conditions to avoid

none

#### 10.5. Incompatible materials

Polymerization with heat evolution may occur in the presence of radical forming substances (e.g. peroxides), reducing substances, and/or heavy metal ions.

#### 10.6. Hazardous decomposition products

No known hazardous decomposition products.

#### **SECTION 11: Toxicological information**

## 11.1. Information on hazard classes as defined in GB CLP Regulation

#### Acute toxicity

Based on available data, the classification criteria are not met.

#### ATEmix calculated

ATE (oral) > 2000 mg/kg; ATE (dermal) > 2000 mg/kg; ATE (inhalation vapour) > 20 mg/l; ATE (inhalation dust/mist) > 5 mg/l

#### Irritation and corrosivity

Skin corrosion/irritation: Based on available data, the classification criteria are not met.

Serious eye damage/eye irritation: Based on available data, the classification criteria are not met.

#### Sensitising effects

May cause an allergic skin reaction. (di-urethane dimethacrylate; tetramethylene dimethacrylate)

## Carcinogenic/mutagenic/toxic effects for reproduction

Germ cell mutagenicity: Based on available data, the classification criteria are not met. Carcinogenicity: Based on available data, the classification criteria are not met. Reproductive toxicity: Based on available data, the classification criteria are not met.

## STOT-single exposure

Based on available data, the classification criteria are not met.

## STOT-repeated exposure

Based on available data, the classification criteria are not met.

## Aspiration hazard

Based on available data, the classification criteria are not met.

## 11.2. Information on other hazards

#### Other information

The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP].

according to UK REACH Regulation

## dialog Vario Flow

Revision date: 20.03.2025

Product code: 643378-643393-1

Page 6 of 9

## **SECTION 12: Ecological information**

## 12.1. Toxicity

Toxic to aquatic life with long lasting effects. Toxic to aquatic life with long lasting effects.

## 12.2. Persistence and degradability

The product has not been tested.

#### 12.3. Bioaccumulative potential

The product has not been tested.

#### 12.4. Mobility in soil

The product has not been tested.

## 12.5. Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to UK REACH.

The product has not been tested.

# 12.6. Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

## 12.7. Other adverse effects

No information available.

## **Further information**

Do not allow to enter into surface water or drains. Do not allow to enter into soil/subsoil.

## **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

#### **Disposal recommendations**

Do not allow to enter into surface water or drains. Dispose of waste according to applicable legislation.

## List of Wastes Code - residues/unused products

080410 WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS; wastes from MFSU of adhesives and sealants (including waterproofing products); waste adhesives and sealants other than those mentioned in 08 04 09

#### Contaminated packaging

Non-contaminated packages may be recycled. Handle contaminated packages in the same way as the substance itself.

## **SECTION 14: Transport information**

## Land transport (ADR/RID)
